

Product Specifications

HypaBand Tan EAB Tape, Small

- Ideal for dressing support
- Fabric material conforms easily to many areas of the body including joints such as knuckles
- Ideal for securing dressings
- Available in 3 widths

HypaBand Tan EAB Tapes are ideal for securing dressings. The tape provides flexible support, moving with the body, and the fabric material conforms easily to the body including difficult areas such as joints such as knuckles.

HypaBand fabric tapes can be applied directly to skin and over dressings, they offer a long lasting hold.
