

Heavy Duty Floor Cleaner

Product Description

BioHygiene Heavy Duty Floor Cleaner utilises a low foaming, multi surfactant degreasing system in combination with chelating and alkalinity agents to cut through the toughest greasy soils and make floors less slippery.

Core Benefits

- Concentrated formula, reducing the cost in use, single use plastic and CO2e
- Makes floors less slippery and hazardous
- Dissolves greasy soils and holds them in solution, preventing re-deposition
- Powerful formulation cuts through heavy grease and leaves surfaces clean and shiny
- Removes scuffs, grease, grime and fatty deposits from a variety of surfaces
- Effective in winter or where salt is a problem
- Suitable for all water resistant unprotected hard floors e.g. stone, ceramic, tile, safety flooring and concrete
- Reduces CO2e by up to 85%

How does it work?

BioHygiene Heavy Duty Floor Cleaner is a powerful and versatile water-based alkali cleaner that contains a heavy duty, quick breaking, multi-surfactant system to provide wetting, penetrating, soil cutting and anti-redepositing action quickly emulsifying and lifting soils, dirt and grease from hard surfaces.

An eco friendly blend is incorporated to regulate the alkalinity to ensure powerful cleaning reducing the potential harm to the user or damage surfaces and ensuring that the product works in hard water areas. This combination allows the surfaces to dry quickly, preventing water spots and maintaining a streak-free shine on the cleaned surface.

Directions for use

Dilute at 1:150 and can be used in spray bottles and buckets
Dilute at 1:300 for use in scrubber driers.

Product specification

Contains: fresh fragrance, water softener, solvent, multi-surfactant combination.

Environmental

- Local UK Production and supply chain reduces CO2e impact from transport
- Post Consumer Recycled bottles provide a circular life cycle reducing CO2e and removing physical plastic pollution
- Highly concentrated to reduce plastic, transport and storage costs and environmental impact
- Readily biodegradable (99% over <28 days)
- 0% manufacturing waste
- Not tested on animals

Safety & Storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature.
